

A PROMISING SEASON

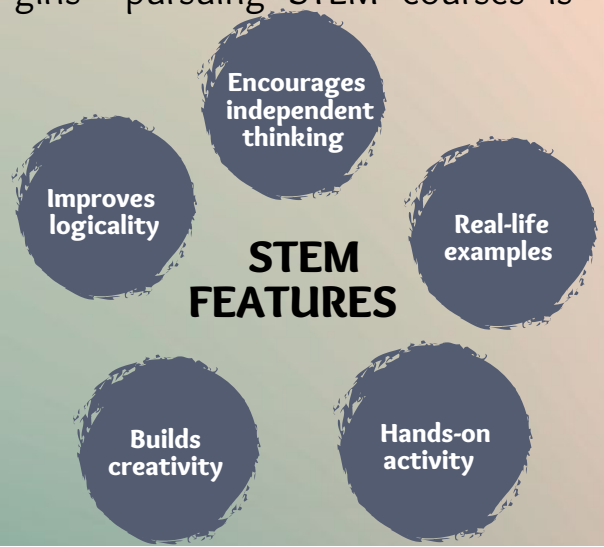

The essence of teaching is to make learning contagious, to have one idea spark another
- Marva Collins

We are delighted to share that children from our centres have shown exceptional improvement in education because of your continuous support. Our team is vigorously working day in and day out to see things to fruition.

INTRODUCING CHUDAR CHAMPS STEM FOR GIRLS PROGRAMME

We have news for you, dear donors and well wishers of Chudar, we have launched CHUDAR CHAMPS programme. This programme aims to ignite passion for science among girls and bridges the STEM (Science, Technology, Engineering, and Maths) gap between boys and girls. (Aavishkar Survey 2021 has shown vast variance between girls and boys aspiring for STEM and the number of girls pursuing STEM courses is drastically low.)

Students attend our classes during school hours and lessons are integrated with the current school curriculum. Training is being given to students to prepare for NMMS (National Means-cum-Merit Scholarship) EXAM as well.

INAUGURAL EVENTS

Inauguration ceremonies were held at Girls Higher Secondary Rajakadai, Tiruvottiur and CHS Erukkanchery. Chief guests Dr. Bhuvaneshwari Sridhar, Sr. Vice President, Pfizer Inc. Chennai, Dr. Malati Raghunath, Adjunct Faculty at IIT Madras and Counselor of 35th Division, at Greater Corporation graced the events at the schools. Our expert Dr. K.Ravi Kumar demonstrated science experiments and explained complex concepts in a simple way. The students showcased experiments at the Science Mela and demonstrated them to the guests. It was a joy to see the girls beaming with enthusiasm.

IMPACT AMONG STUDENTS

Dharshini
Our Chudar Champ

When I heard about NMMS exams (National Means Cum-Merit Scholarship) in 7th grade, I decided that I need to attempt it. I then started studying the notes given by my school teacher and watching the video lessons from Chudar. Clearing the exam was an amazing experience and now I receive a monthly scholarship of 1000₹. This has given me great hope for my higher studies.

DONATE TO SUPPORT

Your donation matters! Give today to enable girl children pursue a career in STEM and prepare for scholarship exams!
