

NEWSLETTER

On the occasion of India's 75th Independence Day celebration, Chudar organised recitation and quiz contests for the students at after-school centres in Vandavasi and Peranamallur in Tiruvannamalai district and Chennai. The children were ecstatic to have an opportunity to showcase their talents and won a lot of prizes.

Seva Samajam (a home for orphan children) wanted Chudar to conduct after-school classes for their children to help strengthen their foundation. Currently, we provide quality education to these children. We are working in tandem with **Bringing Smiles Foundation** to help the children acquire the necessary knowledge, bridge learning gaps and gain the individual attention they require. We hope our efforts will have a positive impact on the children's lives.

VOLUNTEER FEATURE

Sadhvi Narayanan and **Lillian Yu** are co-founders of **Innoventure** and high school seniors in the US. They've been coordinating with Chudar to conduct design and coding classes. Their enthusiasm and passion have encouraged the children to enjoy, learning to code and actively participate in the classes.

“ We are fortunate to work with such dedicated, committed, and passionate students who all have the drive to learn. They are the reason we feel motivated to teach our classes. Innoventure is very grateful for this opportunity ”
- Sadhvi, co-founder of Innoventure

“ It's an amazing journey to see the children learn and grow excited about STEM, and also get to know them. I believe they are all set to do wonderful things in the future. ”
- Lillian, co-founder of Innoventure

Dr Sruthi Priyadarshini, a new mom, has been volunteering with Chudar for more than a year. She creates awareness on health and hygiene through online sessions for our students. Currently, she has been conducting online sessions for our rural centres. These discussions happen through Zoom, and the first session was on First Aid. She helped the kids understand the importance of first aid and when to administer it. The children enjoy interacting with her and look forward to her classes.

“ Teaching children at the centres is such a heartwarming experience. They are very interactive and curious to learn new things. I'd like to thank Chudar for offering this virtual volunteering opportunity. ”

STUDENT IMPACT

“ I love the design classes. I've learnt a lot of new and interesting things like using Canva to make advertisements. I'm very eager to participate and learn more in future classes. ”

Dipesh Babu
A 7th std student from
our Teynampet Centre

“ I've understood a lot about nutrition from the classes. I've started having healthy food. This class was very useful. ”

R Sharmila
Chengattur Centre

“ I'm very grateful that I could attend this online class. I learnt a lot from the First Aid class. I look forward to more classes. ”

S. Rathi
Thiruvathur Centre
