

# Newsletter Jan 2022

WISH YOU A  
HAPPY NEW YEAR  
**2022**

We are excited to share the highlight of the year for our work – we were invited by the Samagra Shiksha Abhiyan (SSA) of Tamil Nadu Government to share our digital content for use by their teachers and students. This will help our content to reach over 35 lakh children studying in government schools!

Other highlights of our 2021 work:

Our rural programs kicked off due to our resource persons shifting to their native place during Covid. This work has expanded and we run after-school centers now in more than 50 villages in Tiruvannamalai, and Chengalpattu districts!

During the second wave of Covid, we distributed relief items to 1400 single parent families and the needy battling Covid-19 and unemployment. We donated more than 10,000 masks (triple layer and N95), pulse oximeters, 30 litres of sanitizers and 100 bedspreads to 4 rural Government hospitals and also conducted vaccination camps in a few villages.

Resuming education work in June, our reach has expanded to 5600 students through daily WhatsApp classes. We closely track and monitor children's progress – we get more than 10000 submissions (of worksheets and puzzles) each month – and have seen measurable improvement in learning outcomes!

None of this would be possible without sustained support from all our donors and well-wishers like you. Please donate below to make a difference in the lives of children.

<https://bob2021.giveindia.org/projects/blended-learning-approach-to-bridge-covid-learning-loss/>

All Donations are eligible under 80G of the Income Tax act.

As we head into a New Year, we thank you for your continued support and confidence in our work.
