

This Vijayadashami, let's fill young hearts with the gift of knowledge. On this special day when children embark on their educational journey, your support can light their path. A donation of just Rs. 200 per child will provide essential stationery for our new rural center students, paving the way for brighter tomorrows. To support, please donate [here!](#)

Blended Learning - Pilot STEM Program

In partnership with the Government of Tamil Nadu, Chudar has launched the "The Pilot STEM Program". This program aims to elevate STEM education in 75 government schools across Chennai, Chengalpattu, Kancheepuram, Villupuram, and Tiruvannamalai districts. This groundbreaking initiative directly impacts the lives of 7,302 middle school students, addressing low initial learning levels and sparking improvement.

We've curated specialized content for Mathematics and Science to enhance students' understanding. A dedicated team of 45 Resource Persons (RPs) guides the program's success, who have conducted 3,125 interactive sessions and fostering engaged and enthusiastic students. We've deployed 50 projectors to facilitate blended learning, combining technology and traditional teaching methods. Furthermore, to provide vital practice opportunities, we've distributed 63,776 worksheets to date. The positive feedback we've received from the HMs and teachers affirms the program's effectiveness.

QUEST Center Expansion

Chudar is proud to announce the expansion of our QUEST Centers, now encompassing primary students as well. With the support of CAMS, we've launched 15 new centers for 4th and 5th std students in Thiruvannamalai and Chengalpattu districts, ensuring that these young minds unlock their full potential right from the start. We've also successfully initiated 5 new QUEST centers for middle school students in Villupuram district. With these valuable additions, Chudar's QUEST network has grown to an impressive total of 86 centers. Special thanks to CAMS for their CSR support.

Chudar Champs - Empowering Young Girls through STEM

We are thrilled to announce that the "Chudar Champs Project - STEM for Girls" has clinched the prestigious "IITMAA Best Initiative - Women in STEM" Award! We extend our heartfelt thanks to the IIT MADRAS ALUMNI ASSOCIATION (IITMAA) for this recognition. Special thanks to our generous donors, Reventics Pvt. Ltd. (a company under Omega Healthcare Management Services). Your support drives our mission to empower more young girls in the world of STEM.
